

Outline of Themes for the All-Ireland Cancer Research Institute Living with and beyond Cancer Workshop and the Output expected from the Day

1. Format of the Workshop:

Three thematic areas which will aim to reach a consensus on how we can get to the next stage:

The consensus/summary at the end of each session should include:

Current landscape

Critical mass and depth

Areas for development and next stage

Each speaker to present in approx. 3 mins on main activities, followed by time for discussion and questions. Each session to reach a summary/consensus.

2. Proposed Thematic areas:

- **Exercise and Nutrition,**
- **Communication/Psychosocial issues including a Survivorship Network,**
- **Implementation, Systems change and Supporting Optimum Quality of Life across the Lifespan**

3. Proposed Schedule and Speakers for the day itemised as follows:

14.45-15.30

Wrap up discussion and next steps

Chair: Prof Juliette Hussey

Chairs of each session to provide brief summary of discussions and next steps

Overall summary and close

Output from All-Ireland Cancer Research Institute *Living with and beyond Cancer Workshop*

Short but practical report outlining context and key next steps

The report will contribute to the overall AICRI research programme

- Current context
- What is needed (presume to get to next level)
- Added value of this research
- Next steps in collaboration
- Drawing up specific strategy
- Potential funding opportunities
